MUSTANG

Dynamo Race Track

POWERplus® Mustang

Dynamo Race Track with
2 illuminated racing cars

POWERplus®

junior

POWERplus introduces the Mustang, a complete 3,8 metre race track including 2 illuminated racing cars and controllers.

Connect the hand generators to the track, place the racing cars in their slots, start rotating the hand generator and off you go!

No batteries, no AC-power! Simply create your own energy and play with this exciting high speed set.

The Mustang is educational and fun for children and adults alike.

Use your imagination and build several different circuit shapes so every time you can race on a new track.
